## Investor Profile Questionnaire

## Building Your Financial Foundation

The Investor Profile Questionnaire is designed to help you gain an in-depth understanding of your investment objective, which serves as the foundation of your portfolio and guides us in making investment recommendations. Your investment objective is based on many factors, including your time horizon, financial goals and risk tolerance. To build your portfolio, you must clearly define your financial goals. Short-term goals may include buying a house or financing a dream vacation. Long-term goals may include saving for your child's education or planning for your retirement.
Your time horizon defines when you want to achieve a goal. It could be 1-5 years, 5-10 years, 15 years, 30 years or more.

Risk is an unavoidable part of investing. Historically, investments with higher returns have required a higher tolerance for risk. Therefore, by clearly defining your risk tolerance, we will be better prepared to choose the most appropriate investments for your portfolio.

Over time, your goals and financial situation may change. It's important for us to discuss any changes, as your original investment objective may need to be reevaluated.

## Determining Your Investment Objective

This self-scoring questionnaire will help us determine your investment objective. Answer each question by writing the corresponding number in the box to the right of each question. Then total the numbers for each section. Fill in the scorecard on the last page to determine your investment objective.

## Time Horizon

QUESTION 1 ..... Your
What is your age? ..... score
56 and over .....  1
46-55. ..... 2
36-45 .....  3

I believe the U.S. economy and foreign markets are interdependent .....  2
I believe overseas markets provide attractive investment opportunities .....  3Your
$\qquad$

## Investor Scorecard

Match your total score with one of the investment objectives listed below. If your score is near the top or bottom of an Adjusted Total Range, you may want to examine the next or previous objective to determine which represents your needs more accurately.

| Adjusted Total Range | Investment Objective |
| :--- | :--- |
| $34-57$ | Income with Capital Preservation |
| $58-83$ | Income with Moderate Growth |
| $84-99$ | Growth with Income |
| $100-114$ | Growth |
| $115-125$ | Aggressive Growth |

The investment objectives shown are for illustrative purposes only. Your investment objective is based on many factors including your financial situation, tolerance for risk, time horizon and other financial needs. Consult your financial advisor if you have any questions.

- Need for capital preservation and current income
- No focus on growth
- Lowest tolerance for risk
- Shortest investment horizon
- Need for current income
- Moderate focus on growth
- Low tolerance for risk
- Short/intermediate investment horizon
- Equal focus on growth and current income
- Moderate tolerance for risk
- Intermediate investment horizon
- Little need for current income
- Focus on growth
- High tolerance for risk
- Intermediate/long investment horizon
- No need for current income
- Focus on aggressive growth
- Highest tolerance for risk
- Long investment horizon
